FAEL Luce is a leading company in the supplying innovative and sustainable lighting systems. The huge range of products includes lighting systems for large areas and sport facilities, urban lighting, industrial and commercial structures. Established in 1965, headquartered in Agrate Brianza (Italy), FAEL Luce experienced a vast development, its export rate reaches the 70% of the production.

Its headquarters near to Milan houses the commercial and administrative departments as well. The plant uses the most modern machinery for the manufacture of the entire product range. It has high production possibilities, and a considerable stock of ready goods. The production process is performed entirely inside and all finished and semi-finished products are made in Italy.
