The **Legrand Group** is a global expert in the field of electrical and digital data transmission for building infrastructure. With its 36,000 employees, the company group headquartered in France operates in more than 180 countries around the world, and reached a net income of 4.5 billion EUR in 2014.

As its Hungarian subsidiary, the Legrand Zrt. employs an average of 500 co-workers, and due to its predecessors, it has more than 90 year professional experiences. The company's headquarters and production facilities can be found in Szentes, its representative office in Budapest.

The Legrand products serve unnoticed not only the comfort of homes, but they are integral parts of modern offices, workplaces, commercial and industrial facilities. In addition to the well-known switches and sockets, new production groups are born in every year as a result of the prudent and careful development work. Beyond the reliability, the installation- and user-friendly solutions and the long life, also the energy efficient operation is an important parameter among the expectations of its products.
