About Tracon Electric

Tracon Electric, established in 1989, is presently represented in eight countries. Its main area of activity is wholesale and retail trade of low voltage electric devices and parts, as well as technical consultancy related to their applications. This concept is materialised in the company name: TRAding + CONsulting.

These activities are extended over many countries. The company deals with more than 5,000 partners in Hungary and further 3,000 partners abroad. The company still is in a process of dynamic evolution; the range of offered products is continuously extended and diversified. Tracon Electric maintains a well equipped laboratory involved in systematic control of the technical parameters and quality of the traded products. It has ISO 9001 certification.
